

2007 WRC Homologation regulations states:

ARTICLE 9: LAPSED HOMOLOGATIONS

The production connected with the World Rally Car Variant (WR) (see Article 10 of the "Homologation Regulations for Group A and B Cars") will not affect the minimum production figure for the extension of the car's homologation.

The World Rally Car Variant (WR) is valid for 7 years after the end of production of the model from which it has come, **or after the last WR Variant homologated.**
